All such adjustments were of a normal and recurring nature unless otherwise disclosed. The year-end balance sheet data was derived from the audited financial statements and, in accordance with the instructions to Form 10-Q, certain information and footnote disclosures required by GAAP have been condensed or omitted. The results reported in these unaudited interim consolidated financial statements are not necessarily indicative of the results that may be reported for the entire fiscal year and should be read in conjunction with the Company's consolidated financial statements for the fiscal year ended August 26, 2023, included in the Company's Annual Report on Form 10-K ("Annual Report") filed with the SEC on October 24, 2023.

2. Summary of Significant Accounting Policies

Refer to Note 2, Summary of Significant Accounting Policies, to the consolidated financial statements included in the Annual Report for a description of significant accounting policies.

Recently Issued and Adopted Accounting Pronouncements

Recently Issued Accounting Pronouncements Not Yet Adopted

In March 2020, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2020-04, Reference Rate Reform (Topic 848), Facilitation of the Effects of Reference Rate Reform on Financial Reporting ("ASU 2020-04"), which provides optional guidance for a limited period of time to ease the potential burden in accounting for reference rate reform on financial reporting. Additionally, in December 2022, the FASB issued ASU 2022-06, Reference Rate Reform (Topic 848), Deferral of the Sunset Date of Topic 848, which extended the period of time for which ASU 2020-04 could be applied. As a result, the amendments in ASU 2020-04 can be applied to contract modifications due to rate reform and eligible existing and new hedging relationships entered into between March 12, 2020 and December 31, 2024. The amendments of these ASUs are effective for all entities and are applied on a prospective basis.

On January 21, 2022, the Company entered into a repricing amendment (the "2022 Repricing Amendment") to its credit agreement with Barclays Bank PLC and other parties (as amended to date, the "Credit Agreement"), as described in Note 5, Long-Term Debt and Line of Credit. In addition to replacing the London Interbank Offered Rate ("LIBOR") as the Credit Agreement's reference rate with the Secured Overnight Financing Rate ("SOFR"), the 2022 Repricing Amendment contemporaneously modified other terms that changed, or had the potential to change, the amount or timing of contractual cash flows as contemplated by the guidance in ASU 2020-04. As such, the contract modifications related to the 2022 Repricing Amendment were outside of the scope of the optional guidance in ASU 2020-04. The Company will continue to monitor the effects of rate reform, if any, on any new or amended contracts through December 31, 2024. The Company does not anticipate the amendments in this ASU will be material to its consolidated financial statements.

In November 2023, the Financial Accounting Standards Board ("FASB") issues Accounting Standard Update ("ASU") No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which updates reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the provisions of the amendments and the effect on its future consolidated financial statements.

No other new accounting pronouncement issued or effective during the fiscal year had or is expected to have a material effect on the Company's consolidated financial statements.

5. Long-Term Debt and Line of Credit

On July 7, 2017, the Company (through certain of its subsidiaries) entered into the Credit Agreement. The Credit Agreement at that time provided for (i) a term facility of \$200.0 million ("Term Facility") with a seven-year maturity and (ii) a revolving credit facility of up to \$75.0 million (the "Revolving Credit Facility") with a five-year maturity. Substantially concurrent with the consummation of the business combination which formed the Company between Conyers Park Acquisition Corp. and NCP-ATK Holdings, Inc. on July 7, 2017, the full \$200.0 million of the Term Facility (the "Term Loan") was drawn

On November 7, 2019, the Company entered into a second amendment (the "Incremental Facility Amendment") to the Credit Agreement to increase the principal borrowed on the Term Facility by \$460.0 million. The Term Facility together with the incremental borrowing make up the Initial Term Loans (as defined in the Incremental Facility Amendment). The Incremental Facility Amendment was executed to partially finance the acquisition of Quest Nutrition, LLC on November 7, 2019. No amounts under the Term Facility were repaid as a result of the execution of the Incremental Facility Amendment.

Effective as of December 16, 2021, the Company entered into a third amendment (the "Extension Amendment") to the Credit Agreement. The Extension Amendment provided for an extension of the stated maturity date of the Revolving Commitments and Revolving Loans (each as defined in the Credit Agreement) from July 7, 2022 to the earlier of (i) 91 days prior to the then-effective maturity date of the Initial Term Loans and (ii) December 16, 2026.

On January 21, 2022, the Company entered into the "2022 Repricing Amendment" to the Credit Agreement. The 2022 Repricing Amendment, among other things, (i) reduced the interest rate per annum applicable to the Initial Term Loans outstanding under the Credit Agreement immediately prior to the effective date of the 2022 Repricing Amendment, (ii) reset the prepayment premium for the existing Initial Term Loans to apply to Repricing Transactions (as defined in the Credit Agreement) that occur within six months after the effective date of the 2022 Repricing Amendment, and (iii) implemented SOFR and related replacement provisions for LIBOR.

On April 25, 2023, the Company entered into the "2023 Repricing Amendment" to the Credit Agreement. The 2023 Repricing Amendment, (i) reduced the interest rate per annum applicable to the Initial Term Loans outstanding under the Credit Agreement immediately prior to April 25, 2023, and (ii) provided for an extension of the maturity date of the Initial Term Loans from July 7, 2024, to March 17, 2027.

The 2023 Repricing Amendment did not change the interest rate on the Revolving Credit Facility, which continues to bear interest based upon the Company's consolidated net leverage ratio as of the end of the fiscal quarter for which consolidated financial statements are delivered to the Administrative Agent under the Credit Agreement. No additional debt was incurred, or any proceeds received by the Company in connection with the 2023 Repricing Amendment. No amounts under the Term Facility were repaid as a result of the execution of the 2023 Repricing Amendment.

Effective as of the 2023 Repricing Amendment, the interest rate per annum for the Initial Term Loans is based on either:

- i. A base rate equaling the higher of (a) the "prime rate," (b) the federal funds effective rate plus 0.50%, or (c) the Adjusted Term SOFR Rate (as defined in the Credit Agreement) applicable for an interest period of one month plus 1.00% plus (x) 1.50% margin for the Term Loan or (y) 2.00% margin for the Revolving Credit Facility; or
- ii. SOFR plus a credit spread adjustment equal to 0.10% for one-month SOFR, 0.15% for up to three-month SOFR and 0.25% for up to six-month SOFR, subject to a floor of 0.50%, plus (x) 2.50% margin for the Term Loan or (y) 3.00% margin for the Revolving Credit Facility.

In connection with the closing of the 2023 Repricing Amendment, the Company expensed \$2.4 million primarily for third-party fees and capitalized an additional \$2.7 million primarily for the payment of upfront lender fees (original issue discount).

The Simply Good Foods Company is not a borrower under the Credit Agreement and has not provided a guarantee of the Credit Agreement. Simply Good Foods USA, Inc., is the administrative borrower and certain other subsidiary holding companies are co-borrowers under the Credit Agreement. Each of the Company's domestic subsidiaries that is not a named borrower under the Credit Agreement has provided a guarantee on a secured basis. As security for the payment or performance of the debt under the Credit Agreement, the borrowers and the guarantors have pledged certain equity interests in their respective subsidiaries and granted the lenders a security interest in substantially all of their domestic assets. All guarantors other than Quest Nutrition, LLC are holding companies with no assets other than their investments in their respective subsidiaries.

The Credit Agreement contains certain financial and other covenants that limit the Company's ability to, among other things, incur and/or undertake asset sales and other dispositions, liens, indebtedness, certain acquisitions and investments, consolidations, mergers, reorganizations and other fundamental changes, payment of dividends and other distributions to equity and warrant holders, and prepayments of material subordinated debt, in each case, subject to customary exceptions materially consistent with credit facilities of such type and size. The Revolving Credit Facility has a maximum total net leverage ratio equal to or less than 6.00:1.00 contingent on credit

extensions in excess of 30% of the total amount of commitments available under the Revolving Credit Facility. Any failure to comply with the restrictions of the credit facilities may result in an event of default. The Company was in compliance with all covenants as of November 25, 2023 and August 26, 2023, respectively.

Long-term debt consists of the following:

In thousands)		mber 25, 2023	August 26, 2023		
Term Facility (effective rate of 8.0% at November 25, 2023)	\$	275,000	\$	285,000

Less: Current finance lease liabilities		83		143	
Long-term debt, net of deferred financing fees	\$	272,032	\$	281,649	

The Company is not required to make principal payments on the Term Facility over the twelve months following the period ended November 25, 2023. The outstanding balance of the Term Facility is due upon its maturity in March 2027.

As of November 25, 2023, the Company had letters of credit in the amount of \$3.5 million outstanding. These letters of credit offset against the \$75.0 million availability of the Revolving Credit Facility and exist to support three of the Company's leased buildings and insurance programs relating to workers' compensation. No amounts were drawn against these letters of credit at November 25, 2023.

The Company utilizes market approaches to estimate the fair value of certain outstanding borrowings by discounting anticipated future cash flows derived from the contractual terms of the obligations and observable market interest and foreign exchange rates. The Company carries debt at historical cost and discloses fair value. As of November 25, 2023 and August 26, 2023, the book value of the Company's debt approximated fair value. The estimated fair value of the Term Loan is valued based on observable inputs and classified as Level 2 in the fair value hierarchy.

6. Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. To increase the comparability of fair value measurements, a three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies, is used:

- Level 1 Valuations based on quoted prices for identical assets and liabilities in active markets.
- Level 2 Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
- Level 3 Valuations based on unobservable inputs reflecting the Company's own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Components of the balance sheet such as accounts receivable, cash and cash equivalents and others approximated fair value as of November 25, 2023.

7. Income Taxes

The tax expense and the effective tax rate resulting from operations were as follows:

	Thirteen Weeks Ended

The effective tax rate for the thirteen weeks ended November 25, 2023 was 3.2% more than the effective tax rate for the thirteen weeks ended November 26, 2022, which was primarily driven by permanent differences.

10. Stockholders' Equity

On April 13, 2022, and October 21, 2022, the Company announced that its Board of Directors had approved the addition of \$50.0 million and \$50.0 million, respectively, to its stock repurchase program, resulting in authorized stock repurchases of up to an aggregate of \$150.0 million. Under the stock repurchase program, the Company may repurchase shares from time to time in the open market or in privately negotiated transactions. The stock repurchase program does not obligate the Company to acquire any specific number of shares or acquire shares over any specific period of time. The stock repurchase program may be suspended or discontinued at any time by the Company and does not have an expiration date.

As of November 25, 2023, approximately \$71.5 million remained available under the stock repurchase program.

11. Earnings Per Share

Basic earnings or loss per share is based on the weighted average number of common shares issued and outstanding. In computing diluted earnings per share, basic earnings per share is adjusted for the assumed issuance of all potentially dilutive securities, including the Company's employee stock options and non-vested stock units.

In periods in which the Company has a net loss, diluted loss per share is based on the weighted average number of common shares issued and outstanding as the effect of including common stock equivalents outstanding would be anti-dilutive. The following table reconciles the numerators and denominators used in the computations of both basic and diluted earnings per share:

	Thirteen Weeks Ended				
(In thousands, except per share data)	Nove	ember 25, 2023	Nov	rember 26, 2022	
Basic earnings per share computation:

Denominator:

Basic earnings per share from net income	\$	0.36	\$	0.36	
Diluted earnings per share computation:					
Numerator:					
Net income available for common stockholders	\$	35,561	\$	35,860	
Numerator for diluted earnings per share	\$	35,561	\$	35,860

Weighted average common shares outstanding - basic		99,629,188		99,200,557

Weighted average common shares - diluted		101,094,736		100,723,036	
Diluted earnings per share from net income	\$	0.35	\$	0.36	

Diluted earnings per share calculations for the thirteen weeks ended November 25, 2023 and November 26, 2022 excluded 0.8 million and 0.4 million shares of common stock issuable upon exercise of stock options, respectively, that would have been anti-dilutive.

Diluted earnings per share calculations for the thirteen weeks ended November 25, 2023 and November 26, 2022 excluded an immaterial number of shares and 0.1 million shares of non-vested stock units, respectively, that would have been anti-dilutive.

12. Omnibus Incentive Plan

Stock-based compensation includes stock options, restricted stock units, performance stock unit awards and stock appreciation rights, which are awarded to employees, directors, and consultants of the Company. Stock-based compensation expense for equity-classified awards is recognized on a straight-line basis over the requisite service period of the award based on their grant date fair value. Stock-based compensation expense is included within *General and administrative* expense, which is the same financial statement caption where the recipient's other compensation is reported.

The Company recorded stock-based compensation expense of \$4.2 million and \$3.3 million in the thirteen weeks ended November 25, 2023 and November 26, 2022, respectively.

The SARs exercised in the thirteen weeks ended November 26, 2022 resulted in a net issuance of 38,850 shares of the Company's common stock. The SARs granted in the thirteen weeks ended November 26, 2022 are liability-classified; therefore the related stock-based compensation expense is based on the vesting provisions and the fair value of the awards.

Overview

The Simply Good Foods Company is a consumer packaged food and beverage company that aims to lead the nutritious snacking movement with trusted brands that offer a variety of convenient, innovative, great-tasting, better-for-you snacks and meal replacements, and other product offerings. The product portfolio we develop, market and sell consists primarily of protein bars, ready-to-drink ("RTD") shakes, sweet and salty snacks and confectionery products marketed under the Quest® and Atkins® brand names. We believe Simply Good Foods is poised to expand its wellness platform through innovation and organic growth along with acquisition opportunities in the nutritional snacking space.

Our nutritious snacking platform consists of brands that specialize in providing products for consumers that follow certain nutritional philosophies and health-and-wellness trends: Quest® for consumers seeking a variety of protein-rich foods and beverages that also limit sugars and simple carbs and Atkins® for those following a low-carb lifestyle. We distribute our products in major retail channels, primarily in North America, including grocery, club, and mass merchandise, as well as through e-commerce, convenience, specialty, and other channels. Our portfolio of nutritious snacking brands gives us a strong platform with which to introduce new products, expand distribution, and attract new consumers to our products.

Business Trends

During fiscal 2023 the Company was affected by the unfavorable effects of higher raw material costs, higher co-manufacturing costs, and supply chain challenges, including supply chain disruptions resulting from labor shortages and disruptions in ingredients.

During the thirteen weeks ended November 25, 2023, our business performance improved as strong Quest sales volume growth more than offset Atkins softness. The Company benefited from lower ingredient and packaging costs which resulted in gross margin expansion versus the year ago period. The Company continues to engage and have discussions with its contract manufacturers and logistics and transportation providers to have its cost structure reflect lower market prices. We believe the Company's strategy and positioning will continue to drive profitable growth for our product offerings and growth within the growing nutritional snacking category.

We continue to actively monitor the dynamic supply chain environment in the United States and elsewhere as well as consumer purchasing behavior. Current or future governmental policies may increase the risk of inflation and possible economic recession, which could increase the costs of ingredients, packaging, logistics and finished goods for our business as well as negatively effect consumer behavior and demand for our products.

Key Financial Definitions

Net sales. Net sales consist primarily of product sales less the cost of promotional activities, slotting fees and other sales credits and adjustments, including product returns.

Cost of goods sold. Cost of goods sold consists primarily of the costs we pay to our contract manufacturing partners to produce the products sold. Operating expenses. Operating expenses consist primarily of selling and marketing, general and administrative, and depreciation and amortization expense. The following is a brief description of the components of operating expenses:

- Selling and marketing. Selling and marketing expenses comprise broker commissions, customer marketing, media and other marketing costs.

General and administrative expenses comprise expenses associated with corporate and administrative functions that support our business, including employee compensation, stock-based compensation, professional services, executive transition costs, integration costs, restructuring costs, insurance and other general corporate expenses.
- Depreciation and amortization. Depreciation and amortization costs consist of costs associated with the depreciation of fixed assets and capitalized leasehold improvements and amortization of intangible assets.

Results of Operations

During the thirteen weeks ended November 25, 2023, our net sales increased to \$308.7 million compared to \$300.9 million for the thirteen weeks ended November 26, 2022, driven by Quest volume growth, which offset softness in Atkins net sales, resulting in a 2.6% increase in our aggregate North America net sales. Gross profit and gross profit margin improved driven by higher sales volumes and lower ingredient and packaging costs.

In assessing the performance of our business, we consider a number of key performance indicators used by management and typically used by our competitors, including the non-GAAP measures EBITDA and Adjusted EBITDA. Because not all companies use identical calculations, this presentation of EBITDA and Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. See "Reconciliation of EBITDA and Adjusted EBITDA" below for a reconciliation of EBITDA and Adjusted EBITDA to net income for each applicable period.

Table of Contents

Operating expenses. Operating expenses increased \$4.8 million, or 8.2%, for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022 due to the following:

- Selling and marketing. Selling and marketing expenses increased \$3.5 million, or 12.1%, for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022, due to expenses related to growth initiatives.
- General and administrative. General and administrative expenses increased \$1.3 million, or 5.1%, for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022. The increase in general and administrative expenses was primarily attributable to \$0.7 million of stock based compensation expense, \$0.4 million of executive transition costs, and other investments in organizational capabilities.
- Depreciation and amortization. Depreciation and amortization expenses was \$4.4 million for the thirteen weeks ended November 25, 2023 and \$4.3 million for the thirteen weeks ended November 26, 2022, respectively.

Interest income. Interest income increased by \$1.0 million for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022, due to higher cash balances, the increase in interest rates, and other sources of interest income.

Interest expense. Interest expense decreased \$1.0 million for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022, primarily due to the effect of principal payments reducing the outstanding balance of the Term Facility (as defined below) to \$275.0 million as of November 25, 2023, from \$400.0 million as of November 26, 2022. The reduction in the outstanding balance of the Term Facility was partially offset by the increase in interest rates on our Term Facility to 8.0% as of November 25, 2023 from 7.7% as of November 26, 2022. Additionally, interest expense related to the amortization of deferred financing costs and debt discount decreased \$0.1 million for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022.

Gain on foreign currency transactions. Foreign currency transactions resulted in a gain of \$0.2 million and a gain of \$0.1 million for the thirteen weeks ended November 25, 2023 and November 26, 2022, respectively. The variance is attributable to changes in foreign currency rates related to our international operations.

Income tax expense. Income tax expense increased \$1.9 million for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022. The increase in our income tax expense was primarily driven by higher income from operations and changes in permanent differences.

Net income. Net income was \$35.6 million for the thirteen weeks ended November 25, 2023, a decrease of \$0.3 million compared to net income of \$35.9 million for the thirteen weeks ended November 26, 2022. Net income benefited by higher gross profit, higher interest income, and lower interest expense, partially offset by growth in marketing expenses, higher stock based compensation expenses, executive transition costs, and higher income tax expense.

Adjusted EBITDA. Adjusted EBITDA increased \$1.2 million, or 2.0% for the thirteen weeks ended November 25, 2023 compared to the thirteen weeks ended November 26, 2022, driven primarily by higher gross profit, partially offset by growth in marketing expenses. For a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure, see "Reconciliation of EBITDA and Adjusted EBITDA" below.

Reconciliation of EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA are non-GAAP financial measures commonly used in our industry and should not be construed as alternatives to net income as an indicator of operating performance or as alternatives to cash flow provided by operating activities as a measure of liquidity (each as determined in accordance with GAAP). The Company defines EBITDA as net income or loss before interest income, interest expense, income tax expense, depreciation and amortization, and Adjusted EBITDA as further adjusted to exclude the following items: stock-based compensation expense, executive transition costs, and other non-core expenses. The Company believes that EBITDA and Adjusted EBITDA, when used in conjunction with net income, are useful to provide additional information to investors. Management of the Company uses EBITDA and Adjusted EBITDA to supplement net income because these measures reflect operating results of the on-going operations, eliminate items that are not directly attributable to the Company's underlying operating performance, enhance the overall understanding of past financial performance and future prospects, and allow for greater transparency with respect to the key metrics the Company's management uses in its financial and operational decision making. The Company also believes that EBITDA and Adjusted EBITDA are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in its industry. EBITDA and Adjusted EBITDA may not be comparable to other similarly titled captions of other companies due to differences in the non-GAAP calculation.

Liquidity and Capital Resources

Overview

We have historically funded our operations with cash flow from operations and, when needed, with borrowings under our Credit Agreement (as defined below). Our principal uses of cash have been working capital, debt service, repurchases of our common stock, and acquisition opportunities.

We had \$121.4 million in cash as of November 25, 2023. We believe our sources of liquidity and capital will be sufficient to finance our continued operations, growth strategy and additional expenses we expect to incur for at least the next twelve months. As circumstances warrant, we may issue debt and/or equity securities from time to time on an opportunistic basis, dependent upon market conditions and available pricing. We make no assurance that we can issue and sell such securities on acceptable terms or at all.

Our material future cash requirements from contractual and other obligations relate primarily to our principal and interest payments for our Term Facility, as defined and discussed below, and our operating and finance leases. Refer to Note 5, Long-Term Debt and Line of Credit, and Note 8, Leases, of the Notes to Unaudited Consolidated Financial Statements in this Report for additional information related to the expected timing and amount of payments related to our contractual and other obligations.

Debt and Credit Facilities

On July 7, 2017, we (through certain of our subsidiaries) entered into a credit agreement with Barclays Bank PLC and other parties (as amended to date, the "Credit Agreement"). The Credit Agreement at that time provided for (i) a term facility of \$200.0 million ("Term Facility") with a seven-year maturity and (ii) a revolving credit facility of up to \$75.0 million (the "Revolving Credit Facility") with a five-year maturity. Substantially concurrent with the consummation of the business combination which formed the Company between Conyers Park Acquisition Corp. and NCP-ATK Holdings, Inc. on July 7, 2017, the full \$200.0 million of the Term Facility (the "Term Loan") was drawn.

On November 7, 2019, we entered into a second amendment (the "Incremental Facility Amendment") to the Credit Agreement to increase the principal borrowed on the Term Facility by \$460.0 million. The Term Facility together with the incremental borrowing make up the Initial Term Loans (as defined in the Incremental Facility Amendment). The Incremental Facility Amendment was executed to partially finance the acquisition of Quest Nutrition, LLC on November 7, 2019. No amounts under the Term Facility were repaid as a result of the execution of the Incremental Facility Amendment.

Effective as of December 16, 2021, we entered into a third amendment (the "Extension Amendment") to the Credit Agreement. The Extension Amendment provided for an extension of the stated maturity date of the Revolving Commitments and Revolving Loans (each as defined in the Credit Agreement) from July 7, 2022 to the earlier of (i) 91 days prior to the then-effective maturity date of the Initial Term Loans and (ii) December 16, 2026.

On January 21, 2022, the Company entered into the "2022 Repricing Amendment" to the Credit Agreement. The 2022 Repricing Amendment, among other things, (i) reduced the interest rate per annum applicable to the Initial Term Loans outstanding under the Credit Agreement immediately prior to the effective date of the 2022 Repricing Amendment, (ii) reset the prepayment premium for the existing Initial Term Loans to apply to Repricing Transactions (as defined in the Credit Agreement) that occur within six months after the effective date of the 2022 Repricing Amendment, and (iii) implemented SOFR and related replacement provisions for LIBOR.

On April 25, 2023, the Company entered into the "2023 Repricing Amendment" to the Credit Agreement. The 2023 Repricing Amendment, (i) reduced the interest rate per annum applicable to the Initial Term Loans outstanding under the Credit Agreement immediately prior to April 25, 2023, and (ii) provided for an extension of the maturity date of the Initial Term Loans from July 7, 2024, to March 17, 2027.

The 2023 Repricing Amendment did not change the interest rate on the Revolving Credit Facility, which continues to bear interest based upon the Company's consolidated net leverage ratio as of the end of the fiscal quarter for which consolidated financial statements are delivered to the Administrative Agent under the Credit Agreement. No additional debt was incurred, or any proceeds received by the Company in connection with the 2023 Repricing Amendment. No amounts under the Term Facility were repaid as a result of the execution of the 2023 Repricing Amendment.

Effective as of the 2023 Repricing Amendment, the interest rate per annum for the Initial Term Loans is based on either:

i. A base rate equaling the higher of (a) the "prime rate," (b) the federal funds effective rate plus 0.50%, or (c) the Adjusted Term SOFR Rate (as defined in the Credit Agreement) applicable for an interest period of one month plus 1.00% plus (x) 1.50% margin for the Term Loan or (y) 2.00% margin for the Revolving Credit Facility; or

ii. SOFR plus a credit spread adjustment equal to 0.10% for one-month SOFR, 0.15% for up to three-month SOFR and 0.25% for up to six-month SOFR, subject to a floor of 0.50%, plus (x) 2.50% margin for the Term Loan or (y) 3.00% margin for the Revolving Credit Facility.

In connection with the closing of the 2023 Repricing Amendment, the Company expensed \$2.4 million primarily for third-party fees and capitalized an additional \$2.7 million primarily for the payment of upfront lender fees (original issue discount).

The Simply Good Foods Company is not a borrower under the Credit Agreement and has not provided a guarantee of the Credit Agreement. Simply Good Foods USA, Inc., is the administrative borrower and certain other subsidiary holding companies are co-borrowers under the Credit Agreement. Each of the Company's domestic subsidiaries that is not a named borrower under the Credit Agreement has provided a guarantee on a secured basis. As security for the payment or performance of the debt under the Credit Agreement, the borrowers and the guarantors have pledged certain equity interests in their respective subsidiaries and granted the lenders a security interest in substantially all of their domestic assets. All guarantors other than Quest Nutrition, LLC are holding companies with no assets other than their investments in their respective subsidiaries.

The Credit Agreement contains certain financial and other covenants that limit the Company's ability to, among other things, incur and/or undertake asset sales and other dispositions, liens, indebtedness, certain acquisitions and investments, consolidations, mergers, reorganizations and other fundamental changes, payment of dividends and other distributions to equity and warrant holders, and prepayments of material subordinated debt, in each case, subject to customary exceptions materially consistent with credit facilities of such type and size. The Revolving Credit Facility has a maximum total net leverage ratio equal to or less than 6.00:1.00 contingent on credit extensions in excess of 30% of the total amount of commitments available under the Revolving Credit Facility. Any failure to comply with the restrictions of the credit facilities may result in an event of default. The Company was in compliance with all covenants as of November 25, 2023 and August 26, 2023, respectively.

At November 25, 2023, the outstanding balance of the Term Facility was \$275.0 million. We are not required to make principal payments on the Term Facility over the twelve months following the period ended November 25, 2023. The outstanding balance of the Term Facility is due upon its maturity in March 2027. As of November 25, 2023, there were no amounts drawn against the Revolving Credit Facility.

Stock Repurchase Program

On October 21, 2022, we announced that our Board of Directors had approved the addition of \$50.0 million to our stock repurchase program, resulting in authorized stock repurchases of up to an aggregate of \$150.0 million. The Company did not repurchase any shares of common stock during the thirteen weeks ended November 25, 2023. During the thirteen weeks ended November 26, 2022, the Company repurchased 546,346 shares of common stock at an average share price of \$30.11 per share.

As of November 25, 2023, approximately \$71.5 million remained available for repurchases under our \$150.0 million stock repurchase program. Refer to Note 10, Stockholders' Equity, of the Notes to Unaudited Consolidated Financial Statements in this Report for additional information related to our stock repurchase program.

Net cash used in financing activities for the thirteen weeks ended November 26, 2022 primarily consisted of \$16.4 million in repurchases of common stock, \$6.5 million in principal payments on the Term Facility, and \$2.3 million in tax payments related to issuance of restricted stock units and performance stock units, partially offset by \$4.6 million of cash proceeds received from option exercises.
